UBS:nine
Version 3

ACCOUNTING
Reliable, Secure & Fast

Fully integrated accounting system to meet business needs.

1 New Wizard Setup
- This initial setup wizard will be shown after the product is installed.
- This wizard serves as a quick start to new users in getting started with the system.
- It provides step by step guide for the user to setup the necessary masters in the system.
- It reduces the hassle of having to go through different menu paths in order to get all the setup required in place.

2 Additional User Interface
- Quick access process flow for Accounting, Inventory & Billing
- A set of quick access task flows will be displayed on the newly introduced dashboard in Accounting, Inventory & Billing modules respectively.
- User can choose to execute a task by clicking on the process flow button to directly access the entry screen.
- This quick access will help to speed up entry by eliminating the tedious tasks of having to go few levels to call up the entry screen itself.
- This is also very useful especially for new users who are not familiar with the system yet.

3 Enhanced APS format for UBS Payroll
- In the latest release, the APS format has been enhanced to support the following banks: -

Bank Name	APS number in UBS Payroll
RHB	76
CIMB	75
